

Driver Vision:

Alert DVE 2 wide High Resolution Thermal Driver Vision System

Alert DVE 2 wide provides enhanced situational awareness for armored, track-wheeled, and combat vehicles. It enables enhanced visibility during day, night, fog, rain and smoke. The Alert DVE 2 wide incorporates 2 high resolution 640 x 512 LWIR thermal detectors delivering a wide 94° FOV for enhanced driver vision.

Alert DVE 3 wide High Resolution Thermal Driver Vision System

Alert DVE 3 Wide provides enhanced situational awareness for armored, track-wheeled, and combat vehicles. It enables driver visibility during day, night, fog, rain and smoke. The Alert DVE 3 Wide incorporates 3 high resolution 640 x 512 LWIR thermal detectors stitched together to provide the operator a large panoramic 125° HFOV, advanced digital image stabilization, and scene tracking..

Alert DVE 3X High Resolution Thermal Driver Vision System

Alert DVE 3X provides enhanced situational awareness for armored, track-wheeled, and combat vehicles. It enables enhanced visibility at night, in fog, rain, haze and smoke.

Patriot DVE2 AN/VAS-5B Driver's Vision for Enhanced Situational Awareness on Tactical Wheeled Vehicles

The NVTS Patriot DVE provides enhanced situational awareness in adverse weather, nighttime, and in battlefield operations. Patriot's compact, flexible design easily installs onto existing vehicles, or as a drop-in replacement for legacy DVE systems.

Network Cameras:

Nimbus IPX Thermal and HD Visible Network PTZ Camera System

The IP-based Nimbus IPX is the professional's choice for capturing brilliant, 1080P full HD video in maritime, transportation, and other high risk applications. The Nimbus IPX modular pan / tilt imaging system meets the growing demand for high-performance surveillance solutions.

Pan Tilt EO/IR Cameras:

Atlas LRX Long-Range Border Camera

NVTS's ATLAS LRX provides a turnkey solution for extended range border and coastal surveillance. Designed to operate in extreme environments, the Atlas LRX delivers a combination of wide area detection, target identification and tracking.

Guardian 4HD Long Range EO IR Gyro-Stabilized ISR System

The newly designed Guardian 4HD is a powerful medium to long range gyro-stabilized ISR camera system. Guardian's flexible payload configuration makes it a smart choice for a wide variety of platforms. A precision gyro-stabilized camera system, it delivers high definition imaging, long-range optics and precision targeting in a compact package.

Reliant 640HD Stabilized Rugged Multi Sensor Night Vision HD Camera System for Shipboard or Land Operations

NVTS's new Reliant 640HD is a powerful compact medium range stabilized ISR camera system designed for maritime, ground vehicle and remote surveillance operations. With two high performance cameras, the Reliant 640HD compares to cameras more than twice the price.

Day/Night Vision Binoculars:

Alert MRB 2 Multi-Sensor Dual Channel Day/Night Thermal Bi-ocular

The Alert MRB2 is a ruggedized dual channel thermal bi-ocular that incorporates a large format, high sensitivity LWIR, with very high resolution (800 x 600 pixels) thermal camera, GPS, and Laser Range Finder (LRF).

Remote Weapon Sight:

Kepler RWS True HD EO/IR Remote Weapon Sight

NVTS's Kepler RWS is a compact, powerful long-range weapons grade surveillance and targeting system. Loaded into Kepler's rugged housing is a large format 5.3 MP HD Visible Camera, 1.3 MP HD MWIR, LRF, optional laser pointer or designator.

Image Intensified Night Vision:

Panther BNVD-15 Dual Tube Night Vision Goggle

The Panther BNVD-15 utilizes two high performance Image Intensified Tubes for outstanding clarity under the darkest conditions. A built-in IR illuminator lets the operator easily read a map and operate equipment in very dark conditions with increased depth perception and outstanding clarity.

Panther NVG-P7 Military Night Vision Goggle

The Panther NVG-P7 is a light-weight, compact, military-grade night vision goggle equipped with an Automatic Brightness Control (ABC), which automatically adjusts the brightness of the 12 tube to deliver superior image quality resolution under changing light conditions.

Panther MG14 Compact Multi-Use Night Vision Monocular

NVTS's Panther MG14 solves the problem of having multiple scopes for each mission. The MG14's high impact composite housing provides reliability in extreme environments. It's innovative design compliments multi-mission requirements allowing the user to read charts, enable short range surveillance, weapon mount or administer first aid at night.

Thermal Monocular/Scope:

Arrow Pocket Handheld Thermal Imager

The NVTS Arrow Thermal monocular solves the problem of size without sacrificing performance. Arrow's advanced hot spot tracking and 8 GB of picture storage make it an ideal choice for evidence and scene gathering.

Rhino TCO High Resolution Thermal Clip-On Weapon Sight

NVTS's dual use Rhino TCO thermal clip-on weapon sight is mounted in front of an existing day scope or can be used as a compact stand-alone thermal handheld monocular. Our high resolution full color OLED display delivers incredibly crisp detail, including 5 different thermal scene modes with rich imaging and enhanced target identification.
